

Haxey

Church of England Primary Academy

Year 2

Welcome to Year 2! Here you will find an overview of the Year 2 Autumn curriculum - if you have any questions, please feel free to speak to a member of the Year 2 team.

English

Our phonics will be based on the Read, Write, Inc. scheme. Those who have finished the phonics scheme will have guided reading.

In English we will start by revising basic grammar skills. Then we will look at and write narrative recounts, poetry and informative letters in the first half term. After that we will focus on diary recounts, and instructions leading up to Christmas.

Maths

In Maths, we are looking at place value and addition and subtraction using numbers up to 100. Later on, we will look at 2D and 3D shapes, lines of symmetry and patterns.

Science

We will be studying materials. We will look at the different materials that objects are made of and think about why these materials are used. We will also look at how we can recycle different materials.

Geography

We will find out about human and physical features and compare our local area with the area of Tulum in Mexico.

History

We will learn about significant events in history. This term we will find out about the Titanic. Why was it so significant and what lessons were learned?

RE

We will be exploring the key beliefs of the Muslim faith. Looking at the 5 pillars of Islam and how they help Muslims lead their life and follow the straight path.

PSHE

PSHE will focus on being me in my world. Particularly hopes, fears, rewards and responsibilities. Later on, we will focus on celebrating differences.

Art

Our art focus will be on monochromatic art and patterns. We will look at how designers use patterns and how patterns are used in celebrations. We will explore and record this using sketchbooks.

Music

We will listen to, and perform, a range of songs. We will look at phrasing and tuning and play tuned percussion.
(Glockenspiels)
We will also compose call and response music.

DT

We will be investigating, designing and then sewing our own bookmarks.

Computing

Children will develop their understanding of IT in school and beyond. Later on they will focus on digital photography.

PE

The children will be learning ball skills, striking and fielding, dance and gymnastics.
